U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On February 9, 1975
- Export shipments in
Current Marketing Year
- Daily Sales reported
February 10 - 18, 1975

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on February 20, 1975, release:

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1974/75 increased by only 171,300 metric tons (MT) since the last report of this series. This total includes exports and outstanding sales through February 9 and later sales reported under the daily reporting system through February 18. An increase of 77,400 MT was reported in the commitment to unknown destinations. Other increases in commitments were reported for Venezuela (183,700 MT), India (47,600 MT), and Japan (41,000 MT). These increases were partially offset by reductions in commitments to Africa (128,000 MT—mainly Egypt and Mozambique), Portugal (51,700 MT), and Poland (45,700 MT).

Feedgrains: Since last week's report, the apparent export commitment for feedgrains in 1974/75 rose by 255,800 MT, of which 124,100 MT were commitments to unknown destinations. Total sorghum commitments declined by 29,900 MT, while total corn commitments increased by 228,800 MT. Feedgrain commitments to Japan declined by 173,700 MT (117,500 MT of corn and 56,200 MT of sorghum). Reported corn commitments to Portugal and Mexico rose by 83,000 MT and 138,700 MT, respectively. The European Community (EC) issued corn import licenses (for purchases from all third countries) for only 58,000 MT during the week ending February 11; this was the second consecutive slow week after EC corn license issuance averaged 750,000 tons per week during the 6 week period ending January 28, 1975.

Rice: During the week ending February 9, an increase of 51,200 MT in the apparent export commitment for 1974/75 was largely accounted for by new sales of 41,900 MT to Bangladesh.

Soybeans: During the week ending February 9, the apparent export commitment declined by an additional 216,000 MT, primarily in EC destinations. This brings total contract cancellations since December 29, 1974, to over 860,000 MT. On February 13, the EC Council of Agricultural Ministers approved a new soybean guide price of approximately \$9.70 per bushel for the 1975/76 crop, 12 percent higher than the previous year's level.

Soybean Meal: During the week ending February 9, the apparent export commitment continued its decline and fell 120,000 MT, bringing total contract cancellations and deferrals to 786,000 MT since December 29, 1974. Some EC officials expect soybean meal prices to bottom out at the current \$140 - \$150 range, as soybean and soybean oil prices continue to decline.

Soybean Oil/Cottonseed Oil: Soybean and cottonseed oil exports continued strong during the week ending February 9 and totaled 14,600 MT and 11,400 MT, respectively.

Cotton: During the week ending February 9, 81,000 running bales (RB) of Upland cotton were exported. The apparent export commitment for 1974/75 increased by 50,000 RB and now stands at 4,566,000 RB.
